

DARMAND GROUP

We entered the beauty market in 1993. As CNC International we introduced our nail brand, Nail Creation. Dedicated to supply nail technicians with the best nail products available, Nail Creation became a strong international brand for professional gel, acrylic and supplementary products. The company has since grown to be an international organization with its own production facilities and worldwide exports around the globe. With more than 23 years of experience, CNC International develops and produces a wide range of UV gels, gel polish, and acrylics for numerous nail brands in more than 45 countries in 5 continents.

In 1997, Armand Hoes was the first to introduce digital pigmentation to Europe: Nouveau Contour. It is now the premier brand for micropigmentation worldwide in all 25 countries where distributed and the knowledge leader in the industry.

In 2011, the company expanded with the development of Dermatude. Dermatude Meta Therapy is an anti-ageing concept with direct visible results– the 100% natural facelift alternative. This turnkey concept is a guarantee for success. Since its launch in 2011, success has become worldwide. Dermatude Meta Therapy is represented in 34 countries around the world and counting!

The company's global headquarters is located in The Netherlands, where all matters related to exports, sales, order processing, training, graphic design and marketing are managed. Product development, production and dispatch departments are separately located at our Global Logistics Center. In 2009, we opened our US headquarters and training facilities in Orlando, Florida.

"CNC'S LONG TERM CLIENTS PROVE THAT OUR QUALITY PRODUCTS ARE THE KEY TO SUCCESS."

CNC International is the leading manufacturer of UV gel and acrylic systems for the professional nail industry.

CNC International has one of the largest assortments available. To meet our client's needs and the needs of their clients, we possess in-house production facilities and an innovative R&D department, while also working closely together with chemists, toxicological institutions and laboratories worldwide.

CNC's long term national and international clients prove that our quality products are the key to success. CNC has been established in 1993 and is based in the Netherlands, Europe. With more than 20 years of experience, CNC develops and

produces a wide range of UV gels, gel polish and acrylics for numerous nail brands in more than 45 countries in 5 continents.

WELCOME TO THE FUTURE OF NAILS

Nail Creation is an international brand for professional nail styling products that was established in 1993. Dedicated to supplying nail technicians with the best nail products available, Nail Creation has been advancing the technology of nail products in order to achieve maximum performance and perfect results. Nail Creation is among the leading brands in nail design worldwide and currently available in over 30 countries. Our largest market is Europe, where we are the market leader in several countries. Nail Creation specializes in both gel and acrylic for nail design and sculpturing.

Nail Creation is a strong brand, has a uniform international image, high-class presentation, and great profit margins. The nail industry is exceptionally dynamic and has its own unique developments and styling trends. With our own R&D department and production facilities, we have all products, know-how and training facilities in-house, which makes it possible to

offer all new creative developments to the nail industry. We are committed to creating time-saving, effective products to enable technicians to work more efficiently, profitably and perfectly, nail after nail.

The premier global manufacturer of professional micropigmentation products

In the past decades, micropigmentation has evolved from modest permanent make-up to superior micropigmentation techniques. Nouveau Contour is the premier brand for micropigmentation worldwide and the knowledge leader in the industry. Nouveau Contour has always been the innovator in developing new techniques at the highest standards. In all countries where distributed, Nouveau Contour is the leading brand. Our global expertise is reflected in our renowned Master Academy, the only one of its kind in the world of permanent make-up. With the broad expertise of our International Master Educators, we offer the best and extensive training program in micropigmentation.

Established in 1997, Nouveau Contour has since grown to be an international organization with

its own production facilities for professional micropigmentation application and exports worldwide.

Nouveau Contour International Head Quarters is located in The Netherlands. Nouveau Contour opened its US headquarters and training facilities in Orlando, Florida in 2009.
